the brokers may be who were responsible for Saturday's manipulations, they will be suspended for twelve months under the rules. Then if it is found expedient they will be forced to sell their seats on the Exchange.

A member of the Governing Board of the Exchange said this afternoon that there were three important reasons why the investigating committee of five should go immediately to work.

stop be put to the abuse of the machinery of the Exchange to promote individual interests.

Second, to learn why there was such a general diminution of business.

Thirdly, to discuss the advisability of eking legislative aid in preventing orther wholesale manipulations of securities and wanton violations of Stock

"It is time that radical and stringent measures were adopted to prevent such outrages, if such there be, and we have every reason to believe that the charges that have ben made are true. Many of the metabers of the Exchange are now on their vacation, but the vast majority will be in accord with the action wehave taken."

To-day the total sules on the Exchange were little more than one-fifth of the total for Saturday.

Thomas Lawson's name has prominently mentioned in conectic and net charges of stocks from Saturday's final guidations are as follows:

## They've Never Used the Right Kind

-that's why some women don't like naphtha soaps.

The right kind is P.& G. Naphtha Soap. It is as much better than other naphtha soaps as they are better than ordinary laundry soaps.

Why is it better? Because it is made of better materials; because its washing power is greater; because, being harder, it will last longer; because, it weighs more and does more.

Millions of cakes of P. & G. Naphtha Soap are made every month. Every single cake helps to make some woman's work easier. By using it, she is able to do as much work in an hour as her neighbors do,

in two. That is a fact a fact to which hundreds of housewives bear willing testimony.
